

## More information. More security.

### CompanyProfile Professional

Detailed information for weighty decisions.

Are you thinking of cooperating with or buying into a company? Would you be hit hard if one of your new main suppliers were to default? Or are you just about to close a major business deal? A CompanyProfile Professional report is just what you need to conduct a thorough background check.

### CompanyProfile Standard

The classical report for reliable business transactions.

A long-standing business partner has recently been reluctant to pay up? So would you be willing to confirm larger shipments at the usual terms and conditions without any further guarantees? Or do you simply want to know whether a new customer is as creditworthy as this customer alleges? Get the CompanyProfile Standard report to gain a thorough understanding of a company's financial situation.

### CompanyProfile Compact

Quick information on credit standing and risk.

Are you more interested in a business partner's credit standing than in that partner's background? As a risk-based information package, the Company-Profile Compact report provides you with accurate figures for all relevant indicators. A short glance will tell you whether the business deal you are considering comes with a manageable risk or not.

### CompanyProfile Basic

Puts the focus on credit standing.

Are you unsure about whether you want to start a business relationship with one of your partners? The CompanyProfile Basic report verifies your partner's identity and provides you with an assessment based on the KSV1870 rating.

### BalanceSheetReport

Accounting information with structured balance sheet data.

You need some balance sheet data and would like to look into a business partner's income statement? The Balance Sheet Report gives you a rundown on the status quo and ongoing trends. This information package includes data from the financial statements in absolute figures as well as percentages with a comparison over several years.

### MasterDataReport

The most important company data.

If you are looking to update your customers' master data and add further details, the Master Data Report is just what you need. In addition to identification and structural data, this report also provides a company's VAT number.

### CompaniesHouseReport

For key data relating to developments under commercial law.

Do you need to know more about a business partner's development under commercial law aspects? Based on original Company Register data, this report provides you with essential information on a company from the perspective of commercial law, both historical and present.

### FamilyTreeReport

An overview of corporate structures with daily updates.

Would you like to look inside a business partner's ownership structure? The Family Tree Report provides information not only about stakes currently and formerly held in other businesses but also about the identity of persons holding executive positions as defined under commercial law.

### BeneficialOwnerReport

Provides quick details about direct and indirect interest held.

Does your work involve sec. 40 of the Austrian Banking Act (BWG)? Do you need a quick source of reliable information whenever the need arises to be able to identify and check customer data? The Beneficial Owner Report provides you with in-depth information about corporate structures. With all the details on any direct and indirect interest held, you will be all set to make an informed decision.

### InsolvencyReport

Daily updated information on bankruptcies.

One of your business partners had gone bust. You need up-to-date information in order to react quickly. The Insolvency Report provides all the necessary details for you to take further initial steps.
