## Disclaimer

### Note

Since 2020, the economy has faced ever-changing challenges. The consequences of the COVID 19 pandemic and the war in Ukraine are having a massive impact on the availability of goods, supply chains, energy costs and other factors. Therefore, a linear development of the economy cannot be assumed at present. Accordingly, Austrian companies have to hold their own in a very volatile environment.

The credit reports of KSV1870 are prepared with the greatest possible care and in consideration of economically relevant developments. However, KSV1870 recommends that KSV1870 information, including the KSV1870 rating, monitoring reports and recommendations, always be used for business decisions, taking into account the daily developments that we cannot determine in detail.

## KSV1870 Rating

Using its unique database, and backed by over 150 years of experience as an association for the protection of creditors, KSV 1870 has successfully been developing quality, reliable measurement methods and ratings for the forward-looking assessment of personal and corporate credit worthiness. Depending on the data available, various statistical models can be applied.

**CompanyScore model:** This model can be used when researched data is available. Time series track the developments; depending on the legal form of the company, balance sheet data may be available. Information on the payment track record, debt collection data, etc. are likewise taken into account and assessments by the information experts are given particular attention.

**StartupScore model:** This model is used when the company is less than 12 months old and no extensive data is available yet. General information on the persons of economic relevance in the company as well as the line of business, legal form, etc.

**BasicScore model:** This model is used when basic data on the corporate structure is available; data updates are continuously fed into the business database. If available, debt collection cases, bankruptcies and current balance sheet are taken into account.

## KSV1870 evaluation and individual maximum credit

We use the KSV1870 rating models to determine the future risk of a business relationship. However, in no case can we guarantee or pledge that the assessment we provide will actually occur in each individual case.

Individual maximum credit is the amount that we establish as the maximum exposure of each supplier. KSV1870 should in no case be considered a credit insurance company. Therefore, KSV1870 cannot be held liable in the event of payment difficulties, non-payment or payment default at a later point in time. The entrepreneur has sole discretion when deciding whether to extend credit for deliveries and services in an amount up to or in excess of the individual maximum credit is and KSV1870 can in no case be held liable.

## WebRisk Indicator

The WebRisk Indicator measures IT security of a company's website but does not guarantee any specific assurance on an organisational level. This indicator is designed as a selection tool for CyberRisk Rating candidates within a given supplier base. It is recognised as a first step towards demonstration of compliance with the NIS act (NISG) and related regulations.

A blue WebRisk Indicator means that no signs of elevated IT security risks were identified within the assessment criteria listed below. A purple or red WebRisk Indicator means that one or multiple assessment criteria have not been met. In this case, an in-depth analysis of the company using a full-scale CyberRisk Rating is recommended.

Neither KSV1870 Information GmbH nor KSV1870 Nimbusec GmbH accept liability for IT security incidents and any damage that may occur as a result of entering into business relations with a company that has undergone an assessment.
